Lighting fixture FALGA 1 Black

FALGA surface-mounted luminaires are a modern, simple base combined with oblong reflectors in the shape of truncated tubes. Thanks to the possibility of adjusting each spot separately, you can easily adjust the angle of incidence of light and accurately illuminate and display selected elements of the space. It will be perfect not only as a point lamp, but also thanks to the possibility of replacing light sources and using GU10 bulbs with more power, it can act as the main lighting of a given room.
